

Pontoon, Riverhills

A new public pontoon is located within the grounds of the Centenary Rowing Club facilities at the end of Summers Road. The pontoon, constructed by the Brisbane City Council, was completed on 12 June 2020. This will enhance the attractions offered by the Brisbane River as a recreational and tourist destination.

The pontoon will provide an additional river access point for this popular recreational area and will be able to facilitate a range of vessels and uses including:

- launching and short-term use of passive crafts such as kayaks, canoes and stand-up paddleboards
- short-term use for recreational vessels
- pick-up and drop-off for commercial vessels up to 75 tonnes
- a rest point or destination within a network of other public pontoons.
